Tool Directory

The pencil draws a thin line in any colour or pattern.

The paintbrush is a medium sized circular draw tool.

The spray paint tool will spray a circular array of dots onto your card with any colour or pattern.

The fill tool, or paint bucket, fills whatever the top of it touches with whatever pattern or colour is selected.

The eraser allows you to erase the entire background of a card by double-clicking on it. You can also choose Erase Background from the Edit menu. Clicking once will allow you to erase a part, or all of your card.

The line tool will draw straight lines. Hold down the Shift key for a perfectly straight line.

The Text tool is used to paint text onto your card. Double click on it to change font, size and style.

The browse tool is used to click on buttons.

The arrow is used to edit graphics, text boxes and buttons.

The rectangle tool can make a rectangle in an outline form. To make a perfect square, hold down the shift key.

The Oval can make an oval or circle in outline form.

The rounded rectangle can make a rectangle in an outline form
