

Clip Art

1) To import clip art, go to **File** and scroll down to **Add Clip Art**.

2) Double Click on the file of your choice.

3) Select the lasso tool and draw around your picture. Wait for the marching ants and then press Okay.

4) Click, hold and drag your picture around until you are happy with its location. Once you click outside of the marching ants, you will have to reselect the picture with the moving tools in the Hyperstudio tool box.

Part 3

1) To move from slide to slide, simply go to Move and scroll down to whichever card you would like to move to.

Move	Tools	Objects
